Hello there,

I just wanted to congratulate you all for your this final event. It is the first time I see such high participation (until the end!) in a final conference. This is very hard to get in general but even more at an online event. Moreover, content-wise, it was an incredibly interesting conference. So nice to see all these partners so committed and happy to see each other! It really is very fulfilling (and I don't say this lightly \uD83D\uDE0A).

I know we still have a few months together, but we are going to miss you so much guys! Congrats on your impressive results and thank you very much for making our lives so much easier with your professionalism!

Please feel free to share this message with the rest of the partners.

We stay in touch,

Charo
