**BEFORE THE CAMPAIGN** 

**AFTER THE CAMPAIGN** 

Consumption F1	=> 642 kWh	
Consumption F2	=> 111 kWh	
Consumption F3	=> 134 kWh	

Total Consumption 1° week => 887 kWh

Consumption F1 Consumption F2 Consumption F3	=> 329 kWh	-313 - 28 <u>+ 16</u>
	=> 83 kWh	
	=> 150 kWh	

Total Consumption 3° week => 562 kWh -325

### 325 kWh = 122 euro saved – 211 kgs CO2 avoided

## Jordan: Pilot project **Madaba SCHOOL**

### Jordan: Campaign at **SCHOOL**

It's time to #ActGreen in Madaba, Jordan.

Royal Scientific Society, NERC and MMC conducted a training for staff and students of Iskan Al-Faiha School on energy efficiency and renewable energy measures implemented in the building through #SoleProjectMed.

## Lebanon: Campaign in the STREET for citizens

During its Summer Festival 2022, the Municipality of Jounieh - بلدية حونيه, Lebanese partner of SOLE, launched its ACT GREEN campaign by encouraging its citizens and visitors to take a guiz on energy saving habits; those who answered correctly had the chance to win a solar powered torch labeled with the SOLE project's and the Municipality of Jounieh's logos.

This is just the first step towards the implementation of the ACT GREEN campaign in Jounieh: the campaign will also be carried out in the Fouad Chehab Stadium where an energy rehabilitation intervention, co-financed by SOLE, is scheduled to take place soon.

rehabilitation intervention, co-financed by SOLE, is scheduled to take place soon.

### **Egypt: Campaign at WORKPLACE**

# **Egypt: Campaign at the ACQUARIUM for citizens**

CEEBA took the opportunity yesterday at the #EU Delegations' s European -Egyptian Energy Day to promote its ENI CBC Med Programme projects with a focus on #Energy and #Water promoting #energyefficiency in #Publice Buildings through the Sole Project and #resourceefficient solutions for #Energy through our Maia-Taga, as well as #sustainablebusiness Management through its Investmed Project and #nonconventional #water resources through is #MEDWAYCAP project.
